

PervasiveHealth Conference
23rd - 26th May 2011, Dublin, Ireland

Pervasive Health 2011

5th International Conference on Pervasive Computing Technologies for Healthcare
2011, Dublin, Ireland.

Call For Papers

It is with great pleasure that we announce the 5th International Conference on Pervasive Computing Technologies for Healthcare.

The overall goal of the conference remains tightly coupled with the original aims of the field, to address a set of related technologies and concepts that help integrate healthcare solution more seamlessly into everyday life, regardless of space and time. To achieve this, it is necessary to take a multidisciplinary approach to Pervasive Healthcare Technology research and development. The Pervasive Healthcare Community has a broad scope of research topics and concerns:

- identifying and understanding problems from a **technological, social, and medical** perspective (with a particular emphasis on understanding and supporting patient needs);
- **design, implementation, and evaluation** of supporting hardware and software infrastructures, algorithms, and applications; and
- organisational strategies that facilitate **integration** of Pervasive Healthcare Technology into the healthcare enterprise.

Important Dates

web:	www.pervasivehealth.org
email:	ph2011@pervasivehealth.org

Workshop Proposal Deadline:	19th November 2010
Paper Submission Deadline:	4th February 2011
Notification of Acceptance:	11th April 2011
Camera Ready Deadline:	25th April 2011
Conference Date:	23rd - 26th May 2011

Technical cooperation:

Sponsors/Organisers:

Proceedings will be published in IEEE Xplore.
Acceptance rate was under 30% for the last two editions.
